EXPERIENCE

Senior Fund Accountant

April 2023- Present

IRR Group (Investment Firm/Family Office), New York, NY

- Established and implemented internal controls for accounting and reporting processes, laying the groundwork for robust financial systems during IRR's startup phase.
- Reviewed and reconciled the portfolio's Net Asset Value and investment performance on a monthly, quarterly, and annual basis. Monitored and tracked fund-related cash flows, including capital calls and distributions, ensuring reconciliation across the accounting platform, investment platform, and banking records.
- Prepared and reviewed wire payments, including capital calls, partnership distributions, trustee fee payments, tax payments and other expense items, ensuring accuracy and timely execution.
- Prepared quarterly Trustee Fee calculation based on the NAV of each entity within the structure, ensuring accuracy and compliance. As part of this process compiled NAV packages for each entity as supporting documentation for the underlying calculation.
- Responsible for the preparation and review of internal and external loan calculations as well as reconciliation with accounting and investments platforms.
- Conducted detailed review and analysis of fund-level management fee and incentive fee allocations, ensuring accurate calculations and compliance with fund agreements. Responsible for the preparation of the Summary of Terms sheet for all new investments.
- Spearheaded the design and execution of monthly, quarterly, and annual investment reporting, collaborating with cross-functional management teams to ensure accuracy and relevance for stakeholders.
- Prepared and reviewed audited financial statements for the investment firm and management company in accordance with IFRS, working closely with auditors to ensure the timely completion of audits and effectively addressing all inquiries.
- Managed ad hoc technology projects, including implementing data feeds for investment and accounting platforms, enhancing reconciliation processes, and deploying AI data extraction tools to automate daily operations.
- Designed and led treasury and forecasting workflows by analyzing cash flow requirements, delivering precise projections, and optimizing liquidity management to support strategic investments.
- Independently mastered and introduced Power BI to improve reporting efficiency, completing a six-week course and integrating the tool across workflows.
- Oversaw financial activity and reporting for diverse asset classes, including Private Equity, Venture Capital, Hedge Funds, Cryptocurrency, Public Equities and more.
- Supervised accounting staff, fostering professional development through mentorship and performance management. Responsible for managing and coordinating with outsourced work to ensure timely and accurate project delivery.

Accounting Advisory Manager

May 2021- April 2023

CFGI, New York, NY

- Provided cost effective solutions that improved clients' processes by developing standard templates for cyclical processes.
- Worked with Private Equity firms to develop initial Financial Statements as well as quarterly and annual reporting requirements in compliance with GAAP.
- Worked with client management teams to understand unusual, complex, or extraordinary transactions and events and develop appropriate responses to improve productivity.
- Worked with large private client in Significant Equity Group to help administer stock compensation and equity distribution. Forecasted equity values and evaluated equity buyout for incoming employees.
- Built strong client relationships which translated into the extension of projects and acceptance of future projects.

Audit & Assurance Senior II**July 2018-May 2021**

- Served clients in alternative asset management, specializing in real estate across REITs, private firms, and property managers.
- Led audit teams to execute the overall audit plan, meet deadlines, manage client meetings, and mentor junior staff.
- Perform review/audit procedures related to various SEC filings, including Forms 10-K, 10-Q, S-10 as well as private engagements.
- Deliver accounting and reporting services such as implementations of new accounting standards (ASC 842, ASC 606).
- Prepare and review audit work papers, including securities valuation/accounting for available for sale, management/incentive fee calculations, waterfall calculations, debt covenants and asset impairment calculations.
- Report on the effectiveness of management's internal controls for SEC registered clients and served as liaison for client's internal audit.
- Lead a team of 10 auditors based in the United States as well as up to 10 auditors internationally, a team of IT specialists, and Tax specialists to complete various projects. Responsible for reporting to upper management on the status of all members of the team.
- Performed risk assessments, data analytics, and financial review for large public clients. Compiled and presented audit findings and suggested business process improvements with client management.
